Every real Digistore24 checkout URL and product ID is in the Master Affiliate Kit PDF and in each niche's own PDF.

**Marketplace status:** confirm current status in your Digistore24 dashboard before describing any product as "approved."

## What's in each folder

| Folder                                  | Contents                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-----------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| `00-ProfitIQS-Master-Affiliate-Kit.pdf` | Program overview, commission guide, brand messaging, compliance, the full real-checkout-link table (63), launch checklist                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| `00-Master-Affiliate-Kit/`              | Brand mark, recruiting graphic, commission CSVs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| `01-...` to `21-...`                    | One niche each. The PDF in each folder is the complete kit: verified product facts and real checkout links, tier comparison, 30 video hooks, 10 full scripts, a full social-media calendar (including 5 carousel decks), 5 email swipes, ready-to-paste paid ad copy for Meta Ads Manager (real character-limit compliance), graphic briefs, an audience and objections guide, and a publishing checklist. Each folder also has the CSVs (for bulk import into scheduling tools) and `graphics/` (10 ready-to-post social images, 34 rendered carousel slides across those 5 decks, plus the real product covers and dashboard render) |
| `97-Affiliate-Hub-Specification.pdf`    | Hub specification (pages, copy, navigation) for the ProfitIQS team                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| `99-Audit-and-Launch-Checklist.pdf`     | Audit report, QA report, handoff notes, pre-launch checklist                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| `98-Source-and-Build/`                  | `config.json` and `checkout_links.json` (single source of truth), knowledge packs, `pdf_build/` (the PDF generation system), QA scripts -- the only place in this kit with raw source files                                                                                                                                                                                                                                                                                                                                                                                                                                            |

Every PDF has a real, clickable table of contents (PDF bookmarks) — open your reader's sidebar or outline panel to jump straight to any section. Every niche cover, the brand mark, and every graphic uses the current ProfitIQS logo.

## What's genuinely yours to fill in

Search inside any PDF for [NEEDS CONFIRMATION] and [YOUR AFFILIATE LINK]:

- [YOUR AFFILIATE LINK] — your own personal Digistore24 tracking link, different for every affiliate, so this has to stay a placeholder.
- [FIRST NAME] / [YOUR NAME] — for the email swipes, once you're sending to a real list.
- A handful of **business and legal decisions only ProfitIQS can confirm** — the Digistore24 commission basis (before or after fees), brand-keyword bidding policy, and final purchase terms on the sales page.

Everything else — product facts, checkout URLs, product IDs, prices, commission math, sheet lists, page counts — is real and already filled in, verified directly from the shipped product files.
