Audience

Owners of residential and commercial cleaning businesses, from solo cleaners to companies with several crews.

Buyer profiles (HYPOTHESIS)

The owner-cleaner. Still cleans most days, quotes jobs from experience and does the admin at night.

The crew-based company. Runs several crews and needs to see crew productivity and job profit.

The commercial contract cleaner. Works on recurring contracts and wants recurring revenue and contract terms in view.

The growing residential service. Has a regular customer base and wants to keep customers coming back.

Business problems in this industry (HYPOTHESIS)

General industry context to shape your angle. Do not present these as facts about the buyer or results of the product.

- **Jobs priced by feel.** Quotes based on habit can leave some jobs barely covering crew time and supplies.
- **Crew productivity is invisible.** Owners know which crew feels efficient, not which one produces the most profitable hours.
- **Recurring revenue at risk.** Regular customers and contracts are the backbone, and a quiet cancellation is easy to miss.
- **Supplies and travel creep.** Supplies, fuel and travel time between jobs add up without being noticed.
- **Late-paying customers.** Unpaid invoices on commercial accounts turn into cash-flow pressure.
- **Tax-time paperwork.** Receipts, payroll and job records end up scattered by the end of the year.

Buyer motivations (HYPOTHESIS)

- Know which jobs and customers are profitable
- Compare crews on real output
- Protect and grow recurring revenue
- Keep supplies and expenses under control
- Be organized for the accountant

Why someone might consider a business intelligence system

The common thread is visibility: cleaning business owners usually have the data (repair orders, invoices, receipts) but not one place that turns it into decisions. The Cleaning Service Business Intelligence System™ gives them a ready-built Excel workbook for that (VERIFIED: dashboards, reports and tax set-aside built in). Whether it helps depends on the owner entering data and

reviewing it regularly.

Key numbers this audience cares about (educational)

- **Job profitability:** What each job leaves after crew time and supplies.
- **Crew productivity:** How much paid work each crew completes for the hours it works.
- **Recurring revenue:** Revenue from regular customers and contracts that repeats each month.
- **Customer retention:** How many customers keep booking over time.
- **Accounts receivable:** Money customers owe for completed jobs.
- **Expense ratio:** Expenses as a share of revenue.

Common objections

See 08-Audience-and-Objections.md for full, honest responses.

- "My scheduling app already tracks jobs."
- "I am not an Excel person."
- "I am too small for this."
- "Which edition do I need?"
- "Will it win me more clients?"
- "Does it schedule my crews?"
- "Is it a subscription?"

Hypothetical scenarios (label them as hypothetical if you use them)

- Hypothetical: an owner opens Job Profitability and sees that deep cleans quoted at the standard rate earn far less per hour than regular cleans.
- Hypothetical: a commercial cleaner reviews Recurring Revenue each month to spot contracts coming up for renewal.

Cleaning Service — 10 Short-Form Video Scripts

Each script runs about 20–45 seconds and can be recorded on a phone with a screen recording of the sample workbook. Destination for every script: [YOUR AFFILIATE LINK] (your Digistore24 link for Cleaning Service Business Intelligence System™). Say or show the disclosure.

Script 1: The problem nobody sees

Type: Problem → demo **Target audience:** The owner-cleaner **Length:** about 32 seconds

1. Opening hook (0–3s): You cleaned all week. Which of those jobs actually made money?

2. Spoken narration: Quotes based on habit can leave some jobs barely covering crew time and supplies. The Cleaning Service Business Intelligence System™ puts the numbers on one screen. This is the 02 Executive Dashboard with sample data. Revenue, profit and the key numbers are on the first screen.

3. On-screen text:

- Jobs priced by feel
- Your cleaning business on one screen
- Cleaning Service Business Intelligence System™

4. Visuals / screen recording: Face to camera, then screen recording of 02 Executive Dashboard

5. Call to action: See the editions at the link in my bio. (Caption: #ad — affiliate link)

6. Destination: [YOUR AFFILIATE LINK]

7. Claims to verify before posting:

- 02 Executive Dashboard exists and shows the items named (VERIFIED from product files)
- Disclosure included in caption or on screen

Script 2: Three mistakes

Type: Educational **Target audience:** Cleaning business owners **Length:** about 31 seconds

1. Opening hook (0–3s): Three common money mistakes in a cleaning business.

2. Spoken narration: One: quoting every job the same way regardless of time and supplies. Two: never comparing crews on output. Three: assuming regular customers will always stay. None of these need a new system to fix — but having the numbers in one place makes them hard to ignore.

3. On-screen text:

- Mistake 1: Quoting every job the same way regardless of time and supplies
- Mistake 2: Never comparing crews on output
- Mistake 3: Assuming regular customers will always stay

4. **Visuals / screen recording:** Talking head, numbered text overlays
5. **Call to action:** See the editions at the link in my bio. (Caption: #ad — affiliate link)
6. **Destination:** [YOUR AFFILIATE LINK]
7. **Claims to verify before posting:**
 - These are general observations, not statistics — do not add numbers
 - Disclosure included in caption or on screen

Script 3: What is job profitability?

Type: Educational **Target audience:** Cleaning business owners **Length:** about 26 seconds

1. **Opening hook (0–3s):** What is job profitability, and why should you care?
2. **Spoken narration:** What each job leaves after crew time and supplies. You can work it out by hand, or use a workbook that calculates it for you as you log your data.
3. **On-screen text:**
 - Job profitability
 - Simple definition
 - Check yours monthly
4. **Visuals / screen recording:** Whiteboard or on-screen definition, end on the dashboard
5. **Call to action:** See the editions at the link in my bio. (Caption: #ad — affiliate link)
6. **Destination:** [YOUR AFFILIATE LINK]
7. **Claims to verify before posting:**
 - Only say the product shows Job profitability if it appears on a sheet you have checked
 - Disclosure included in caption or on screen

Script 4: Inside the workbook

Type: Product demonstration **Target audience:** Cleaning business owners **Length:** about 31 seconds

1. **Opening hook (0–3s):** I opened a 27-sheet Excel system built just for cleaning companies. Here is what is inside.
2. **Spoken narration:** This is the Cleaning Service Business Intelligence System™. The Elite edition has 27 sheets. Here is 09 Job Profitability. Each job shows its profit and margin. And this is 07 Crew Productivity. Crews are compared side by side on the work they produce.
3. **On-screen text:**
 - Which jobs actually pay?
 - Crews compared on real output
4. **Visuals / screen recording:** Screen recording: 09 Job Profitability, then 07 Crew Productivity

5. Call to action: See the editions at the link in my bio. (Caption: #ad — affiliate link)

6. Destination: [YOUR AFFILIATE LINK]

7. Claims to verify before posting:

- Sheet count and sheet names (VERIFIED)
- Disclosure included in caption or on screen

Script 5: The late-night books

Type: Owner frustration **Target audience:** The owner-cleaner **Length:** about 29 seconds

1. Opening hook (0–3s): Doing the cleaning business books after a full day of jobs? Watch this.

2. Spoken narration: Receipts, payroll and job records end up scattered by the end of the year. An Excel system with the dashboards already built means you log entries as you go and the reports are ready when you need them.

3. On-screen text:

- Tax-time paperwork
- Log it as you go
- Reports ready when you are

4. Visuals / screen recording: POV clip at a desk, then the dashboard

5. Call to action: See the editions at the link in my bio. (Caption: #ad — affiliate link)

6. Destination: [YOUR AFFILIATE LINK]

7. Claims to verify before posting:

- Do not claim a specific amount of time saved
- Disclosure included in caption or on screen

Script 6: Essential or Elite?

Type: Comparison and decision **Target audience:** Owners deciding on an edition **Length:** about 34 seconds

1. Opening hook (0–3s): Essential or Elite? How to pick the right edition for your cleaning business.

2. Spoken narration: Essential is \$97: owners who want job revenue, expenses, a dashboard, a business health snapshot and a tax set-aside estimate. Elite is \$197: owners who also want customer retention, crew productivity, job profitability, contracts, recurring revenue, receivables, cash flow and forecasting. Complete, \$249, gives you both.

3. On-screen text:

- Essential \$97
- Elite \$197
- Complete \$249

4. Visuals / screen recording: Split screen of the three editions

5. Call to action: See the editions at the link in my bio. (Caption: #ad — affiliate link)

6. Destination: [YOUR AFFILIATE LINK]

7. Claims to verify before posting:

- Prices must match the live sales page
- Disclosure included in caption or on screen

Script 7: Answering the objection

Type: Objection handling **Target audience:** Skeptical owners **Length:** about 26 seconds

1. Opening hook (0–3s): "I am not an Excel person." You do not have to be. Here is why.

2. Spoken narration: The formulas and dashboards are built; you log jobs and expenses. Each edition includes a Field Guide and a Quick Start. It needs desktop Excel.

3. On-screen text:

- I am not an Excel person.
- Built for owners, not analysts

4. Visuals / screen recording: Talking head with the objection as text, then the Quick Start

5. Call to action: See the editions at the link in my bio. (Caption: #ad — affiliate link)

6. Destination: [YOUR AFFILIATE LINK]

7. Claims to verify before posting:

- Requires desktop Excel (VERIFIED) — say so
- Disclosure included in caption or on screen

Script 8: What you actually get

Type: Product-focused **Target audience:** Ready-to-buy viewers **Length:** about 29 seconds

1. Opening hook (0–3s): Here is exactly what is in the Cleaning Service Business Intelligence System™.

2. Spoken narration: Each edition is a downloadable Excel workbook with a Field Guide and a Quick Start, and sample data so you can explore before entering your own. Essential has 8 sheets; Elite has 27. Complete includes both.

3. On-screen text:

- Excel workbook
- Field Guide + Quick Start
- Sample data included

4. Visuals / screen recording: Unboxing-style scroll through the download folder

5. Call to action: See the editions at the link in my bio. (Caption: #ad — affiliate link)

6. Destination: [YOUR AFFILIATE LINK]

7. Claims to verify before posting:

- File list and counts (VERIFIED)
- Disclosure included in caption or on screen

Script 9: Your monthly review

Type: Educational / demo **Target audience:** The commercial contract cleaner **Length:** about 28 seconds

1. Opening hook (0–3s): A 15-minute monthly review for your cleaning business.

2. Spoken narration: Open the dashboard. Check job profitability and crew productivity. Then open 05 Customer Retention. You can see which customers keep booking. Write down one thing to change next month. That's it.

3. On-screen text:

- Open the dashboard
- Check Job profitability
- Check 05 Customer Retention
- Pick one change

4. Visuals / screen recording: Screen recording of the dashboard and 05 Customer Retention

5. Call to action: See the editions at the link in my bio. (Caption: #ad — affiliate link)

6. Destination: [YOUR AFFILIATE LINK]

7. Claims to verify before posting:

- Present the routine as a suggestion, not a result
- Disclosure included in caption or on screen

Script 10: The sheet that surprised me

Type: Curiosity / demo **Target audience:** Cleaning business owners **Length:** about 30 seconds

1. Opening hook (0–3s): There is one number every cleaning business owner should check every month.

2. Spoken narration: It is recurring revenue. Revenue from regular customers and contracts that repeats each month. In the Cleaning Service Business Intelligence System™, 11 Recurring Revenue is where you see it alongside the rest of the business.

3. On-screen text:

- Recurring revenue
- Your recurring revenue, in view

4. Visuals / screen recording: Screen recording of 11 Recurring Revenue

5. Call to action: See the editions at the link in my bio. (Caption: #ad — affiliate link)

Subject line: Jobs priced by feel? **Preview text:** Why a busy cleaning business can still have a thin month **CTA placeholder:** [YOUR AFFILIATE LINK]

Hi [FIRST NAME],

Quotes based on habit can leave some jobs barely covering crew time and supplies.

Owners know which crew feels efficient, not which one produces the most profitable hours.

Neither of these is a moral failing -- it is usually just that the numbers live in different places.

Tomorrow I will share a simple way to see them together.

Email 2: Educational value

Audience segment: Engaged readers who opened email 1 **Subject line:** The job profitability question **Preview text:** One number worth checking every month **CTA placeholder:** [YOUR AFFILIATE LINK]

Hi [FIRST NAME],

Here is one number worth knowing for any cleaning business: job profitability.

What each job leaves after crew time and supplies.

Two more worth adding to your monthly check:

- Crew productivity: How much paid work each crew completes for the hours it works.
- Recurring revenue: Revenue from regular customers and contracts that repeats each month.

You can track these by hand. Next time I will show you a tool that does it for you.

Hi [FIRST NAME],

The tool I mentioned is the Cleaning Service Business Intelligence System(TM).

It is a downloadable Excel workbook built for cleaning business owners. You log your own data and the dashboards, reports and tax set-aside estimate update for you. It ships with sample data, a Field Guide and a Quick Start.

A few things inside the Elite edition:

- 02 Executive Dashboard: Revenue, profit and the key numbers are on the first screen.
- 09 Job Profitability: Each job shows its profit and margin.
- 07 Crew Productivity: Crews are compared side by side on the work they produce.
- 11 Recurring Revenue: Recurring customers and contracts are tracked in one place.

It needs a desktop version of Microsoft Excel. Have a look here: [YOUR AFFILIATE LINK]

Hi [FIRST NAME],

If you looked at the Cleaning Service Business Intelligence System(TM) and were not sure which edition to pick, here is the short version:

- **Essential -- \$97** (8 sheets): Owners who want job revenue, expenses, a dashboard, a business health snapshot and a tax set-aside estimate.
- **Elite -- \$197** (27 sheets): Owners who also want customer retention, crew productivity, job profitability, contracts, recurring revenue, receivables, cash flow and forecasting.
- **Complete -- \$249**: both editions together.

A good question to ask yourself: Do you run crews or clean yourself?

Hi [FIRST NAME],

I will stop talking about the Cleaning Service Business Intelligence System(TM) after this. Two honest answers before I do:

"I am not an Excel person." The formulas and dashboards are built; you log jobs and expenses. Each edition includes a Field Guide and a Quick Start. It needs desktop Excel.

"Will it win me more clients?" No. It shows your numbers so you can decide what to price, keep or change.

If it fits how you run your cleaning business, it is here: [YOUR AFFILIATE LINK]

Cleaning Service — Static Graphics (rendered + briefs)

All ten graphics below are **already rendered** in `graphics/` from the real product files (dashboard renders with sample data and the real Field Guide covers), on the kit's "Ledger" design system -- warm paper, ink type, one confident accent, real exhibits instead of a generic templated look. The brief explains each one so a designer can adapt it.

Required brand assets: ProfitIQS mark (`00-Master-Affiliate-Kit/brand/`), product dashboard image and Field Guide covers (in `graphics/source/`). **Fonts:** Fraunces (headlines), IBM Plex Mono + IBM Plex Sans (numbers, labels, body). **Colors:** paper #F4EFE4, ink #17160F, pine accent #0E4F3F, with a per-niche accent rotation.

Before using any graphic: check prices against the live sales page, add your disclosure in the post caption, and do not edit the screenshots to show figures the product does not produce.

5 carousel decks (34 slides, already rendered)

Every slide of all 5 carousels from 05-Social-Media-Copy.md is also rendered as a real, swipeable image in graphics/carousels/ -- one subfolder per deck, one PNG per slide, in order. Post the whole folder as one Instagram/LinkedIn carousel. Carousels consistently outperform single-image posts for software screenshots because each slide earns its own moment of attention instead of asking the viewer to absorb everything at once.

See every page of the actual workbook

graphics/source/workbook-screenshots/Essential/ and .../Elite/ hold a real screenshot of every visible sheet in both editions (8 and 27 sheets), with the sample data filled in -- not a mockup. Use these to show prospects exactly what they are buying before they pay: in a carousel, a screen-recording voiceover, or a "here is literally every tab" post. They also double as your own reference for what each sheet actually does.

Cleaning Service — Audience and Objection Guide

Legend: **VERIFIED** = read from the shipped 2026 product files. **HYPOTHESIS** = general industry context for marketing angles, not a product claim. **[NEEDS CONFIRMATION]** = fill in before publishing.

Target audience segments

- **The owner-cleaner:** Still cleans most days, quotes jobs from experience and does the admin at night.
- **The crew-based company:** Runs several crews and needs to see crew productivity and job profit.
- **The commercial contract cleaner:** Works on recurring contracts and wants recurring revenue and contract terms in view.
- **The growing residential service:** Has a regular customer base and wants to keep customers coming back.

Common objections and honest responses

"My scheduling app already tracks jobs." Scheduling apps run the calendar. This workbook adds job profitability, crew productivity, recurring revenue, cash flow and tax set-aside. If your app already answers those, you may not need it.

"I am not an Excel person." The formulas and dashboards are built; you log jobs and expenses. Each edition includes a Field Guide and a Quick Start. It needs desktop Excel.

"I am too small for this." Essential is designed for the core numbers: jobs, expenses, a dashboard, a health snapshot and tax set-aside. Elite is for owners managing crews and contracts.

"Which edition do I need?" Essential (8 sheets) covers job revenue, expenses, tax set-aside, a dashboard and a health snapshot. Elite (27 sheets) adds customers and retention, crews and productivity, job profitability, contracts, recurring revenue, receivables, cash flow and forecasting.

"Will it win me more clients?" No. It shows your numbers so you can decide what to price, keep or change.

"Does it schedule my crews?" No. It is an analysis workbook, not scheduling software.

"Is it a subscription?" No. It is a one-time Digistore24 purchase of a downloadable Excel product, not a recurring charge.

Questions to answer before recommending an edition

- Do you run crews or clean yourself?
- Do you have recurring contracts?
- Do you want job-by-job profitability?
- Do you need receivables and cash-flow tracking?

- Do you have desktop Excel?

Recommended edition by situation (from verified contents)

- **Essential:** Owners who want job revenue, expenses, a dashboard, a business health snapshot and a tax set-aside estimate.
- **Elite:** Owners who also want customer retention, crew productivity, job profitability, contracts, recurring revenue, receivables, cash flow and forecasting.
- **Complete:** Owners who want both editions in one package.

When the product is probably not a good fit

- Owners without desktop Microsoft Excel
- Anyone needing scheduling, dispatch or invoicing software
- Franchise systems requiring multi-location cloud reporting
- Owners who will not log jobs regularly

Saying so builds trust. A buyer who is not a fit is a refund, not a commission.

Cleaning Service — Cold Email Sequence (8 emails)

Legend: **VERIFIED** = read from the shipped 2026 product files. **HYPOTHESIS** = general industry context for marketing angles, not a product claim. **[NEEDS CONFIRMATION]** = fill in before publishing.

This sequence is for cold outreach: people who have not opted in and do not know you yet. That is a different legal lane than 06-Email-Swipes.md above, which is strictly for your own permission-based list. Read 00-Master-Affiliate-Kit/Cold-Email-Playbook.md before sending a single one of these: it covers finding leads, verifying them, the domains and inboxes to send from, warm-up, the sending tool, and the real compliance rules for cold email (CAN-SPAM and friends). Sending cold email without that setup will burn your domain fast.

Why these read the way they do: short sentences, plain words, no dashes mid-sentence, one idea per email. A few words are written in CAPS for emphasis, the way a real person types when they mean something, not shouted headlines. Replace **[FIRST NAME]** and **[YOUR NAME]** before sending; your sending tool should fill these in for each contact on its own. Add your own reply-to-opt-out line and business address in your sending tool's signature settings on every email, required by law, see the Playbook.

Email 1: Day 0 (GOOD OPEN)

Subject: a question about your cleaning business

Hi [FIRST NAME],

Hope your week is going okay.

Quick question. Do you know which jobs or clients actually make you money, and which ones barely do? A lot of cleaning business owners do not know this. Not because they are bad at business. It is just hard to see when the numbers live in different places.

I am not selling you anything in this email. I am just curious, is this something you think about?

[YOUR NAME]

Email 2: Day 3 (VALUE)

Subject: a mistake I notice a lot in this line of work

Hi [FIRST NAME],

Here is something I notice a lot with cleaning business owners.

Quoting every job the same way regardless of time and supplies.

It is an easy thing to fall into. You are busy running the cleaning business. Nobody has time to sit and do math every night.

Small gaps like this add up over a year. Sometimes a LOT.

If you want, I can show you a simple way to catch it. No pressure either way.

[YOUR NAME]

Email 3: Day 6 (VALUE / PROOF)

Subject: one number worth knowing

Hi [FIRST NAME],

There is one number I think every cleaning business owner should know.

It is called job profitability. In plain words: what each job leaves after crew time and supplies.

Many owners could not tell you this number if you asked right now. Not because they do not care. They just never built a simple way to see it.

There is a tool that shows this, and a few other key numbers, on ONE screen. Takes about 10 minutes to set up.

Want me to send it over?

[YOUR NAME]

Email 4: Day 9 (MID: TAKE THE PRESSURE OFF)

Subject: maybe this is not for you, cleaning service

Hi [FIRST NAME],

I have sent you a couple emails now. No reply, and that is okay.

Maybe this is just not a priority right now. Maybe you already have a system that works for you. Maybe you are too busy this month, and that is fair too.

I will not keep pushing. If none of this fits, just leave this email and I will STOP reaching out after this.

But if I am wrong, and you do want a simple way to see your numbers, just reply "yes" and I will send it over.

[YOUR NAME]

Email 5: Day 12 (MID: HONEST, NOT PUSHY)

Subject: not trying to sell you something you do not need

Hi [FIRST NAME],

I want to be straight with you.

A lot of cleaning business owners tell me something like this: "My scheduling app already tracks jobs."

Here is the honest answer. Scheduling apps run the calendar. This workbook adds job profitability, crew productivity, recurring revenue, cash flow and tax set-aside. If your app already answers those, you may not need it.

If that sounds like you, this might not be worth your time right now, and that is okay. I would rather tell you the truth than waste your time.

[YOUR NAME]

Email 6: Day 15 (PULL: PICTURE THIS)

Subject: a simple way to see it

Hi [FIRST NAME],

Picture this for a second.

A cleaning business owner opens their numbers for the first time in months. The cleaning business is not in trouble. It is doing fine. But they find a few small leaks, the kind every busy owner misses, like jobs priced by feel.

That is really all this is for. A simple way to see what is REALLY happening in your cleaning business, every week, without extra work on top of your day.

[YOUR NAME]

Email 7: Day 18 (PULL: SIMPLE OFFER)

Subject: here is the simple version

Hi [FIRST NAME],

Let me make this simple.

It is a tool built just for cleaning business owners. You enter your numbers, it shows you your profit, your biggest costs, and crew productivity is invisible.

No new software to learn. No new habits. Just Excel, which you probably already have open most days.

Cleaning Service Business Intelligence System(TM), built for exactly this. Three editions, starting at \$97: [YOUR AFFILIATE LINK]

Disclosure: I may earn a commission if you buy through my link, at no extra cost to you.

If you want to see it first before deciding anything, just reply and I will walk you through it.

[YOUR NAME]

Email 8: Day 21 (BREAKUP / PULL)

Subject: last email from me

Hi [FIRST NAME],

This is my LAST email. I do not want to be the person who keeps showing up in your inbox.

If now is not the right time, no hard feelings at all. Running a cleaning business is hard enough without more emails to answer.

If you ever do want to see your real numbers, the door stays open: [YOUR AFFILIATE LINK]

Disclosure: I may earn a commission if you buy through my link, at no extra cost to you.

Just reply any time, even a few months from now.

Wishing you a good stretch ahead.
